Aurora X2 Smart Lamp - User Manual

Pairing

To pair the Aurora X2 with the Aurora app, hold the power button for seven seconds until the light blinks purple three times. Then select the lamp in the app within two minutes.

Battery

The built-in battery lasts about twelve hours at medium brightness and charges fully in ninety minutes with the included USB-C cable.

Factory reset

To reset the lamp, press the power button and the dimmer button together for fifteen seconds until the light turns solid white.

Warranty

The Aurora X2 has a two-year limited warranty. Water damage is not covered.
